CFJN Returns to the State Capitol for Advocacy Day 2025!

On May 19, 2025, Family Justice Centers from across California came together for another meaningful CFJN Advocacy Day at the State Capitol in Sacramento.

Building on last year's momentum, this year featured a series of important meetings with state legislators and their staff, including leaders of the public safety and budget committees. Everyone added an essential voice to the conversation—highlighting the life-saving work of Family Justice Centers and the need for continued state support for victims and survivors.
